ABOUT ME

I am a passionate and dedicated MERN Stack Developer with expertise in building full-stack web applications and integrating AI-powered solutions. Alongside my technical journey, I have taught Arabic for 3 years, which strengthened my communication, mentoring, and problem-solving skills. Currently, I am pursuing an internship to gain practical industry experience and apply my skills in real-world projects. I am eager to contribute my knowledge of web development and AI technologies, while continuously learning and growing as a professional.
